Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status of the Claims

Applicant's amendment filed on 6/2/2006 sets forth claims 36-39 and 83-100. In the previous Office action, the Examiner for indicated that dependent claims 82-90 would be allowable if rewritten in independent form. Accordingly, the in the present amendment , applicant has amended independent claims 36, 91 and 96 to include the limitations of allowable claim 82, Claims 83, 85 and 87 have been amended to be indicate their dependency on amended, allowable claim 36. Independent claim 100 has been added.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 100 is rejected under 35 U.S.C. 102(b) as being anticipated by Richter [5807404].

Richter discloses an elongated stent for holding open a body lumen, the stent comprising at least a first longitudinal region, a second longitudinal region, and a third longitudinal region, the first longitudinal region comprising a first set of manipulation properties; the second longitudinal region comprising a second set of manipulation properties different than the first set of manipulation properties, the second set of manipulation properties including at least one of: greater flexibility, greater kink

Art Unit: 3738

resistance, or less radial strength than the first set of manipulation properties; and the third longitudinal region comprising a third set of manipulation properties different than the first and second sets of manipulation properties, wherein the third set of manipulation properties mimics the first set of manipulation properties and wherein the third longitudinal region has different metallurgical properties than the first and the second longitudinal regions. See columns 3, 5 and 6 and corresponding figures 1 and 2.

Allowable Subject Matter

Claims 36-39 and 83-99 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 100 have been considered but are moot in view of the new ground(s) of rejection. Claim 100 is not an exact copy of previous combination of independent/dependent claims. The claim is broader in scope than the claims that were objected to by the examiner in the last Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3738

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
